ALL-IN-ONE
Rose & Flower
Care

This product's exclusive 3-in-1 formula feeds and protects against insects & diseases in one easy step. It provides 6 week protection against the major problems of roses, hibiscus, iris and other flowers and shrubs. Easy to use - no spraying or mixing. Growing beautiful roses, flowers and shrubs has never been easier!

- QUICK FACTS**
- 3 Systemic Products in One
 - Fertilizer + Feeds & Renewals
 - Insect Control + Disease Control
 - Protects Against Insects & Diseases for 6 Weeks
 - Easy to Use... No Spraying or Mixing

INSECTS CONTROLLED

Adults, Aphids, Black Vine Weevil Larvae, Beetles, Flatheaded including Bronze Birch and Alder Borers Roundheaded including European Longhorned Beetles, Buprestids, Caterpillars (including rosehips and hawthorn), Japanese Beetles (adults), Leaf beetles (including Elm Leaf Beetles and Veinworm Leaf Beetles), Leafhoppers (including Glass-winged Spittlebugs), Leafminers (including Birch Leafminers and Holly Leafminers), Mealybugs, Mite-like Webworms, Sawflies, Spittlebugs, Spiny Legged Longhorned Beetles, Spiny Legged Longhorned Beetles (susceptible to Armored Scale (suspension) and Soft Scale), Spittlebugs, Trips, Whiteflies

DISEASES CONTROLLED

Black Spot, Powdery Mildew and Rust
Fowley Mildew, Rust and Southern Blight
Roses

PLANTS

Black Spot, Powdery Mildew and Rust
Fowley Mildew, Rust and Southern Blight
Roses, Hibiscus, Rhododendrons and other shrubs

WHERE TO USE

Roses, Hibiscus, Rhododendrons and other shrubs

WHEN TO USE

Every 6 weeks throughout the growing season. (See seasonal limitations in Directions for Use.)

COVERAGE

Treats up to 32 roses & other shrubs or over 700 sq. ft. of flowerbed

Derived from: Ammonium Sulfate, Ammonium Phosphate, Muriate of Potash
F 1514
Information regarding the contents and levels of metals in this product is available on the internet at <http://www.regulatory-info.com>.
When applied as directed, this product meets the guidelines for metals adopted by the Association of American Plant Food Control Officials.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

BEFORE YOU USE
Read and follow these directions when using:

- Do not apply near trees, streams, rivers or ponds.
- Do not apply to plants grown in pots, flower boxes or other containers.
- Do not treat plants grown in pots, flower boxes or other containers.
- Do not apply to plants grown for food.
- Do not use measuring utensils such as measuring cups and measuring spoons used for food or drinking water purposes to measure this product.
- For outdoor residential use only.

HOW MUCH TO USE

- Apply when planting.
- For established plants: use any time after new growth appears.
- Apply again every 6 weeks during the growing season.

WHEN TO USE

- Apply when planting.
- For established plants: use any time after new growth appears.
- Apply again every 6 weeks during the growing season.

HOW IT WORKS

Water moves the product down into the root zone where it is taken up & moved to the plant. The entire plant, even new growth, is protected against insects and disease. Rain or watering cannot wash off this long-lasting systemic protection.

HOW TO APPLY

1. Apply granules to soil around base of plants, sprinkling evenly in the area under the branches.
2. Water granules into top 1 to 2 inches of soil.
3. Water thoroughly after applying.

For flower beds, sprinkle granules evenly over the bed, cultivate lightly into the soil, and water in thoroughly.

FOR BEST RESULTS

- Begin using this product in the spring when plants are actively growing.
- Apply every 6 weeks for a total of 3 applications per year. In areas where disease occurs frequently and the soil is sandy, the application interval can be shortened to 4 - 5 weeks for a total of 4 applications per year, except for flower beds, where you are limited to 3 applications.
- Ensure the product gets down into the rootzone by:
 - pulling mulch away from plants to be treated.
 - building a well around individual plants.
- Apply granules evenly around the plant, and water in thoroughly.
- Keep rose, flower and shrub beds clean. This minimizes harborage sites for diseases and insects. (For additional cultural practices, consult your local County Extension Service.)

GUARANTEED ANALYSIS 6-9-6

Total Nitrogen (N)	6%
Ammoniacal Nitrogen	0.11%
Available Phosphate (P ₂ O ₅)	9%
Soluble Potash (K ₂ O)	6%
Sulfur (S)	2%
Combined Sulfur (S)	2%
TOTAL	100.00%

Contains Indolylidol, the active ingredient in Merit®.

OTHER INGREDIENTS

Do not allow people or pets to enter the treated area until the product has been watered in and allowed to dry.

No permitir a las personas ni a las mascotas ingresar al área tratada hasta que el producto se haya regado y dejado secar.

STORAGE AND DISPOSAL

STORAGE CONDITIONS
 Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet.

DISPOSAL

If Empty:
 • Non-refillable container: Do not refill or reuse this container.
 • Place empty container in trash or offer for recycling if available.

If partly filled:
 • Call your local solid waste agency or toll-free 877-229-3724 for disposal instructions.
 • Never place unused product down any indoor or outdoor drain.

ALMACENAMIENTO Y ELIMINACIÓN

CONDICIONES DE ALMACENAMIENTO
 Almacenar en el contenedor original y en un lugar fresco y seco fuera del alcance de los niños, preferentemente en un armario bajo llave.

ELIMINACIÓN

Si está vacío:
 • Contenedor no reusable. No volver a rellenar ni utilizar este contenedor.
 • Colocar el contenedor en la basura o entregarlo para reciclar si fuera posible.

Si está parcialmente lleno:
 • Llamar a la agencia local de residuos sólidos o al número gratuito 877-229-3724 para solicitar indicaciones para la eliminación.
 • Nunca colocar el producto sin utilizar debajo de algún desagüe interno o externo.

PRECAUTIONARY STATEMENTS

CAUTION Hazards to Humans and Domestic Animals

- Causes moderate eye irritation.
- Avoid contact with eyes or clothing.
- Wear long-sleeved shirt, long pants, shoes, socks, and gloves made of any waterproof material.
- Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

DECLARACIONES DE PRECAUCIÓN

PRECAUCIÓN Peligros para seres humanos y animales domésticos

- Causa irritación moderada en los ojos.
- Evitar el contacto con los ojos o la ropa.
- Usar camisa de mangas largas, pantalones largos, zapatos, medias y guantes fabricados de cualquier material impermeable.
- Lavarse las manos profusamente con agua y jabón después de manipular este producto y antes de comer, beber, masticar goma de mascar o utilizar tabaco.

PELIGROS AMBIENTALES

Este producto es tóxico para los mamíferos, peces e invertebrados acuáticos. Para proteger el medio ambiente, no permitir que el pesticida ingrese o se escurra en las bocas de tormenta, zanjas, alcantarillas o aguas superficiales. Aplicar este producto cuando el clima esté calmado y no haya probabilidad de lluvia para las 24 horas siguientes ayudará a garantizar que el viento o la lluvia no dispersen o escurran el pesticida del área de tratamiento. Barrer todo producto que haya caído sobre entradas, veredas o la calle para que se mantenga dentro del área tratada del césped o jardín ayudará a evitar que ingrese en cursos de agua o sistemas de desagüe.

Información sobre aguas subterráneas: Se sabe que el tebuconazole se escurra a través del suelo a la tierra en determinadas condiciones como resultado del uso según la etiqueta. Utilizar este químico en áreas donde el suelo es permeable, en particular donde el curso de agua es superficial, puede producir contaminación del agua subterránea.

Información sobre aguas superficiales: Este producto puede contaminar el agua a través de la deriva o el rocío en el viento. Este producto tiene un alto potencial de escurrimiento durante varios meses o más después de la aplicación. Los suelos con drenaje escaso y los suelos con cuerpos de agua superficiales son más propensos al escurrimiento de este producto. Un franja de defensa de vegetación a nivel y bien mantenida entre las áreas a las que se les aplica este producto y las áreas de aguas superficiales como estanques, arroyos y vertientes reducirá el potencial de contaminación del agua proveniente del escurrimiento por agua de lluvia. El escurrimiento de este producto se reducirá al evitar las aplicaciones cuando se pronostica lluvia dentro de las 48 horas.

PRIMEROS AUXILIOS

EN CASO DE CONTACTO CON LOS OJOS

- Mantener los ojos abiertos y enjuagar en forma lenta y suave con agua durante 15 a 20 minutos.
- Retirar los lentes de contacto, si los hubiera, después de los primeros 5 minutos, y luego continuar enjuagando los ojos.
- Llamar a un médico o a un centro de control de envenenamiento para consultas sobre el tratamiento.

Mantener los ojos abiertos y enjuagar en forma lenta y suave con agua durante 15 a 20 minutos.

Retirar los lentes de contacto, si los hubiera, después de los primeros 5 minutos, y luego continuar enjuagando los ojos.

Llamar a un médico o a un centro de control de envenenamiento para consultas sobre el tratamiento.

NOTA: Al llamar a un centro de control de envenenamiento, tener la etiqueta del producto a mano. En caso de solicitar tratamiento en una sala de emergencias o consultorio médico, llevar la etiqueta del producto para mostrarla al personal médico.

Para solicitar información médica de emergencia, llamar al número gratuito 877-229-3763.

Ingredientes activos: 1.05% tebuconazole (CAS # 107534-96-3), 0.11% imidacloprid (CAS # 138261-41-3) and 0.05% clothianidin (CAS # 210880-92-5).

NOTA: Investigaciones y pruebas han determinado que las "Indicaciones de uso" son las adecuadas para el uso apropiado de este producto bajo las condiciones previstas. En la medida que sea permitido por la ley pertinente, el Comprador asume la responsabilidad por la falta de rendimiento o seguridad si no es utilizado de acuerdo con las indicaciones de esta etiqueta.

Garantía de devolución de dinero: Si usted no está satisfecho con este producto, gustosamente le reembolsaremos el monto original del precio de compra.

ENVIRONMENTAL HAZARDS

This product is toxic to mammals, fish, and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

Ground Water Advisory: Tebuconazole is known to leach through soil into ground under certain conditions as a result of label use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in ground-water contamination.

Surface Water Advisory: This product may contaminate water through drift of spray/wind. This product has a high potential for runoff for several months or more after application. Poorly draining soils and soils with shallow water tables are more prone to runoff that contains this product. A level, well maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams, and springs will reduce the potential for contamination of water from rainfall runoff. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted within 48 hours.

FIRST AID

IF IN EYES

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

NOTE: When calling poison control center, have this product label accessible. If seeking treatment at an emergency room or doctor's office, bring this product label to show medical personnel. You may call toll-free 1-877-229-3763 for medical emergency information.
